# Meet American Apparel™.

Passion, innovation and  
ethical practices for the  
clothing industry.

**We are a progressive and innovative manufacturer committed to producing quality garments with the highest of standards.**

**Today, we're proud to be a leader in the wholesale business, and the entire garment industry, with a collection of essential fashion basics in a wide range of colours and sizes.**

## **Beyond Basics.**

There's a universal aspect to everything we do: Fabrics for year-round wear; dresses that transition from day to night; loungewear for workouts, weekends, and everything in between.

Our globally-sourced apparel is made with premium fabrics, for a line of 30 elevated styles for women, men, and children.

The fusion of fashion and music has always been integral to the American Apparel ethos; we are known for our collaborations with major artists and musicians.

## **Wholesale Heritage.**

American Apparel's origin story is that of a small wholesale business with a simple mission: to create the highest quality t-shirts.

Backed by Gildan, one of the largest vertically integrated manufacturers of basic apparel, we oversee every aspect of our manufacturing process from raw fibers to the finished product.

Proud to challenge the industry with innovative designs, premium quality, strong workplace ethics; we are dedicated to the use of state-of-the-art machinery, advanced systems and employees who share our passion.

# Globally Sourced, Ethically Made, Sweatshop Free.

**American Apparel has always stood for sweatshop-free, ethical manufacturing. Today, we remain dedicated to creating a positive impact on the people who design, make, and wear our clothes, with a holistic and sustainable approach to production. Our company-owned manufacturing facilities provide employees with free onsite medical clinics, and we invest in communities around the globe, supporting healthcare and education initiatives where we operate. Our facilities and contractors comply with a strict internal code of conduct, following principles and best practices set forth by the Fair Labor Association (FLA) and Worldwide Responsible Accredited Production (WRAP).**

## What We Stand For.

American Apparel's core values are evident in our business and in our branding: We are proud of our ethical manufacturing, ensuring that our products are sweatshop-free and globally-sourced. And we're known for our inclusivity as a brand. We celebrate empowerment, diversity, authenticity, and integrity in everything we do.

## Empowerment.

At American Apparel, we strive for equality in every aspect of our business. With operations in North and Central America, the Caribbean Basin, Asia, and Europe, we remain committed to implementing the best working conditions in the apparel industry to benefit the 48,000+ employees whose passion and dedication make us who we are.

## Diversity.

A wide range of cultures representing diverse economic, political, legal, and social systems are reflected throughout our business. We take a proudly inclusive approach, providing a platform for marginalized communities and celebrating diversity in people from all walks of life.

## Authenticity.

Since our inception, American Apparel has been known for embracing natural beauty. Through open casting calls, we feature real people from all over the globe in our campaigns, with a bold, honest, and unapologetically sexy approach to representing people from all backgrounds.

## Integrity.

At American Apparel, environmental sustainability is a key factor in every stage of production. We hold a deep conviction to rely on renewable energy sources, prioritizing ethically-harvested fabrics. We work closely with community organizations and local governments to provide support and financial assistance in each of our manufacturing countries.
